# Turning Challenges into Opportunities

2008 was a year of progress for AWT in Jordan. There were many things that God blessed us with during 2008, most importantly a team and volunteers who helped carry our vision of reaching Arab women. We had new opportunities to reach and equip more women through our media and training locally and regionally.

## Our performance

It was a year of transition toward a new, more open and more efficient operating environment. Through this transition, the AWT staff proved to be more resourceful and professional in their performance. With the collapse of the global stock market, we encountered numerous financial challenges. The AWT staff turned those challenges into opportunities to transform their humble skills into a wide range of experiences managing crises.

On a personal level, I have learned a great deal about myself as a woman, businessperson and what it means to be a leader. I appreciate the support of our board that believed in me first and empowered me to carry this responsibility in a professional and integral manner.

## Outlook

We will celebrate our first decade of the radio program in 2009. Although it will be a challenging year, we are confident we are creating a ministry that is more responsive, innovative and efficient. We believe we will be a ministry that is winning many souls to Christ and equipping women leaders to carry the legacy of training others. We also have faith that this ministry will see peaceful and healthy homes that seek to raise healthy generations and live in a safe environment that is free of violence.

We invest in people through the contribution of generous donors. We expect that successful strategic planning over the coming years should provide AWT with financial growth and expansion of the ministry.

These are exciting times for AWT. Our audience and trainees in Jordan and the Arab region will truly benefit from what we offer, which will eventually lead them to have a better life and a joyful hope of our Savior. I believe AWT is a vital and unique ministry in the entire Arab world.

I am blessed to be here working with you. Your investment, your encouragement and your support will help us to go further and faster in expanding God's kingdom. I give thanks to God for your part in building AWT over the last 10 years.

In Him,  
Ruba Abbassi

# Ten Years on Air

"Woman Today" is a radio program started in 1999 on radio Moscow with a mono format. The program tackled a wide range of social issues that face Arab women. The biblical view was presented during the talk and the Gospel message in the closing segment. It was the only program for Arab women broadcast on the radio.

Two years later the program transferred to TWR (Trans World Radio) with the same format. In 2003, the program hosted experts in various subjects and women from different countries, ages and backgrounds. True life changing stories were aired to give hope to desperate hearts and draw a smile on stricken faces. The Biblical message was presented in every episode.

In 2005, an additional voice joined the program to handle the interviews. During that time the idea of drama drew a great deal of interest among the audience.

In 2006, a smaller team of three and sometimes four persons performed two minutes skits as an introduction. It gave the audience an idea about the topic for the daily episode.

Major progress took place in 2008. Drama became the main segment in the program, which brought more interest to men and women to listen, laugh, and learn countless lessons about themselves and their life.

The biblical message continued on the same format presented by one voice for about 3-5 minutes.

In 2009, more volunteers joined the drama team which added more experience and efficiency to the radio program and to our media ministry in general.

# Radio Program

Our 15-minute radio program titled "Woman Today" continued to effectively reach the Arab woman in the 22 Arab countries. Twice a week, on two outlets the radio waves carried our voices to these women giving them hope and guidance.

In 2008, we added a new format to our program. The program started with a drama, followed by the biblical message. Forty new topics were discussed in the radio program in 2008. Seeds of truth were planted in the listeners' hearts, minds, and souls helping to lead them to the Savior.

## Some of the discussed topics:

1. Sexual abuse of children
2. Addiction to Internet Pornography
3. Husbands that are intimidated by his wife's success
4. Honor killings
5. Separation of spouses
6. Wife beating
7. Breast cancer
8. Shopping addiction
9. Absence of husband
10. Why do children steal?
11. Abusing housemaids

52 episodes were recorded and edited at TWR studio

Woman's Today program team

During 2008 a team of volunteers and some of AWT staff was formed to produce the program. The team has variety of talented young men and women who live in different cities in Jordan. # Network Conferences

AWT held two Network conferences this year, one in Jordan and the other one in Tunisia.

1. Under the title **"Powerful beyond Measures"**, our annual Network Conference was held in Amman, Jordan. Approximately 50 women from 12 countries were empowered to discover their vision and to set goals. By sharing ideas, accomplishments and failures the women had the tools to evaluate their projects and ministries. Like a ship that charts a course for its destination, women were able to chart a course that allows success to take the place of failure, allowing the Lord to be the captain of the ship, turning their dreams into reality.

## Topics discussed under the title "Powerful beyond Measures":

1. Vision, goals and setting plans
2. External and internal challenges
3. Supporting your project and ministry
4. Conflict resolution
5. Motivating others
6. Team building

*A discussion panel made up of four women who revealed their insights on how they took their visions and turned them into reality.*

*Praise and worship.*

*All participants united in prayer for each country and women's ministries there.*

## Feedback from Network participants:

I shared what I have learned especially the topics regarding "Goal Setting" and "Team Work" in a conference that was held in Jerusalem about setting goals and a plan to the ministry in the Holy Lands, and many leaders from all over Palestine attended this conference, So thank you so much for inviting me and for giving me this great chance to learn so I can teach others."**

**(T. from Egypt):**

**"Attending this Network conference formed a strong iron base for me to stand firm on! It made me stop and evaluate the way I am doing my ministry then work again differently."**

**(T. from Egypt):**

**"After listening to the teaching in this Network Conference it made me notice that I haven't yet shared my vision with anybody and that is the reason why I am alone getting no help at all. But now I will seek to find someone to share my vision with and to help me put this vision on ground in a more effective way."**

2. **"Being a Woman of Influence"** was the title of our second network conference held in Tunisia. Twenty women attended from Tunisia, Morocco and Algeria. This Conference helped us to reach Christian women from different backgrounds, to encourage them in their new life with Jesus Christ and to equip them to make a difference in their own lives and ministries.

# Websites

## 1. English Website:

Our English website continues to provide accurate information for those who seek to know about the Arab woman. More studies and stories were added in 2008, some of which have been reported by Arab women themselves. New statistics, articles, pictures and videos were also added in 2008 to our website. This enriched our user's research about Arab women and what AWT Ministries is doing to reach and equip those women.

The English website users had the opportunity to share their opinions about AWT Ministries in a new section titled "What others say". We received many encouraging words from our partners, contacts and friends.

English Website: [www.awtministries.com](http://www.awtministries.com)  
An average of 850 visits/month

Arabic Website: [www.arabwomantoday.com](http://www.arabwomantoday.com)  
An average of 5155 visits/month

## 2. Arabic Website:

The number of our website users has continued to increase. An average of 5155 visits per month by users of different genders, ages, and backgrounds benefited from our Arabic website articles. Seven writers from Jordan and other Arab countries wrote 571 articles which responded to the daily needs of Arab women. The articles discussed enlightening, educational and inspiring topics and included biblical teaching. These had a formative influence on women's minds and hearts. The information guided them towards improving their personal lives by being better people in their homes and societies.

A new interactive button titled "Topics for discussion" was added in 2008. The visitors were able to post their opinions and questions about certain subjects we discussed and to raise other subjects they were interested in discussing. This button gave us an opportunity to hear from the website visitors and communicate with them. The users were also able to communicate with each other at the same time.

Although our main target group is Arab women, we found from our correspondents that men were also interested in our website. We continued to add more articles in the section titled "Only for men". The information helped them build bridges of understanding with women.

## Feedback from website users:

(N. from Egypt):

"I like your website and always use its articles in my lady's ministry in my church."

(S. from Sudan):

"I like this website as it taught me about many important things for women, it also helped us women in groups by raising our awareness."

# Financial Information

The year 2008 was challenging for the world financially and our ministry was no exception. Costs rose significantly and donations declined, however we continue to cling to the promises of the Lord for His provision. (Philippians 4:18-20) is a sweet reminder that the Lord will provide for His ministry in Jordan, the Middle East and North Africa:

*"I have received full payment and even more; I am amply supplied, now that I have received from Epaphroditus the gifts you sent. They are a fragrant offering, an acceptable sacrifice, pleasing to God. And my God will meet all your needs according to his glorious riches in Christ Jesus. To our God and Father be glory for ever and ever. Amen."*

### Three major overseers hold AWT accountable financially:

1. PMU Interlife, a mission organization that receives grants from and is responsible to SIDA (The Swedish government). According to their laws with their partners they must analyze, evaluate and measure the effects of projects implemented.
2. CHRISTAR is a mission organization that receives funds for AWT projects and provides donors with receipts and reports upon their request. AWT is fully required to submit financial reports and receipts of expenses relating to their account with the mission.
3. The third area is our ANNUAL AUDIT REPORT. The auditor is certified according to the auditing standards in Jordan. The audit examines the consolidated statement of financial position of AWT and the related consolidated statements of activities, functional expenses and the cash flow for the year then ended. The financial report matches the bookkeeping, the accounting system and the quality of internal control of handling money.

Percentage of Giving by Location

**(Kay Parker, US Liaison for AWT):**

**"What is God doing in the Middle East and North Africa? It takes 10 years for missionaries to learn the language and politics keep them out of the Arab World. So how is God making himself known? He has chosen Christian leaders local to every one of the 22 Arab countries. They need encouragement, teaching and networking with other Christians. AWT not only reaches into homes all over the Arab World offering hope and salvation, but through the radio show they provide teaching and encouragement for Christian leaders as well. AWT offers seminars and conferences to leaders and local women. This group of Arab women God has called to reach the millions of hurting women in the Arab world needs our help. Look around at how blessed you are and ask God how you can help Him and join His work in the dark countries of the Middle East and North Africa. It is such an honor for me to give to AWT. I believe in the power of reaching millions of the lost and hurting through radio. Radio is expensive, but oh so powerful. I believe in the work that AWT is doing to make God known all across the 22 Arab countries."**

AWT connected her with "Sarah" a strong believer from Egypt who encouraged her to walk with Christ and joined her in prayer meetings with a group of believers next to her home where she is enjoying and experiencing the grace of Christ.
